PATERSON & SONS respectfully invite Inspection
of their Magnificent Stock of
**Pianofortes, American Organs,
and Harmoniums,**

which is without doubt the finest in the kingdom, as they have been careful to admit only the best Models by Manufacturers of such eminence as, from their long experience, they have found to be of the most undoubted reliability and whose Instruments, as representing the highest value at their respective prices, are best suited to supply the various wants of the Musical Public; and **PATERSON & SONS** trust that their continuous efforts to furnish the Public in all their Establishments with an ample choice of such Instruments, by the leading London and Foreign Makers, will secure to them an increasing share of the Patronage which they have hitherto received from the Nobility, Gentry, and Public of Scotland.

PATERSON & SONS hire out, in Town or Country, either by the Month or Year, or on the "Three Years' System."

PATERSON & SONS' Tuners visit the Principal Districts of Scotland Quarterly, and can give every information as to the Purchase or Exchange of Pianofortes. Orders left with **JOHN McQUEEN**, "Border Record" Office, Galashiels, shall receive prompt attention.

GARDENING.

IN the beginning of the month sow early peas. Prune all sorts of fruit-trees, and if any are infested with insects wash them with soap-suds and flour of sulphur and tobacco liquor. Salads, carrots, and kidney beans are to be sown on slight hot-beds. Plant dried tubers and bulbs of bordered flowers, if not done in autumn. Lay edging in fine weather. Sow mignonette, stocks, &c., in pots. Sow sweet peas and a few hardy annuals on a warm border.

EATON HALL.

THE palace of the Duke of Westminster at Eaton, in the neighbourhood of Chester, is probably the largest, and undoubtedly is by far the most costly private residence in England. The drive through the park to Eaton Hall is fully three miles in length. The present Hall is the fourth which has been built upon the site. The exterior at first rather conveys the impression of a colossal modern hotel, but the design gradually grows upon one. The gardens and conservatories are on a scale commensurate with the Hall.

GARDENING.

IN the beginning and end of the month sow beans and peas; savoy in the last week. Strawberries should be planted about the end of the month. Transplant for the first crop a few of the peas sown in November to the bottom of a south wall. Prune apricots, peaches, nectarines, and plums before the buds are much swelled. Prune apples, pears, cherries, gooseberries, currants, and raspberries before the close of the month. In favourable weather plant dried roots.

LOWTHER CASTLE.

LOWTHER CASTLE, the seat of the Earl of Lonsdale, is situated in a noble park of six hundred acres on the east side of the woody vale of Lowther, not far from Penrith. It was erected upon the site of the old hall, which had been almost totally destroyed by fire as far back as the year 1726. The light-coloured stone of which it is built is in pleasing contrast with the vivid green of the park and woods.

GARDENING.

THIS is the month for sowing the main crops of peas, beans, cabbages, onions, leeks, carrots, parsnips, &c. In the last fortnight sow asparagus, cauliflowers, sea-kale, and celery, and plant the main crop of potatoes. Finish the pruning of fruit-trees before the middle of the month. Begin grafting the third week. Sow hardy annuals in the borders during the last week.

ENDSLEIGH.

ENDSLEIGH, the Devonshire seat of the Duke of Bedford, well deserves a visit from lovers of the picturesque for the sake of its grounds and the beauty of its site. It is situated above the Tamar, near Milton Abbot, about six miles from Tavistock. The private roads run for many miles through woods on both sides of the river, which winds most capriciously, flowing a long way to the east and then as far to the west and nearly encircling the hills which oppose it.

GARDENING.

ON heavy soils sow asparagus, sea-kale, beet, carrots, and onions. Plant cauliflowers, cabbages, and lettuce; finish planting the main crop of potatoes. Hoe and thin spinach, onions, turnips, &c., and earth up cabbages, cauliflowers, peas, beans, and early potatoes. Sow main or succession crops of all kinds of annuals. Plant out tender and deciduous trees and shrubs raised in pots. Remove the coverings of all tender shrubs and plants gradually during the month.

BELVOIR CASTLE.

BELVOIR, or Bever, Castle in situation and aspect partly resembles "majestic Windsor." That Belvoir has been the site of a castle since the Norman Conquest appears well established. The view comprehends the whole vale of Belvoir and the adjoining country as far as Lincoln, including twenty-two of the Duke of Rutland's manors. The interior is sumptuously furnished, and contains a valuable collection of paintings.

SOW peas and beans, cauliflowers, cabbages, Brussels sprouts, &c. Peas that are in progress must be staked. Keep down weeds and maintain war against caterpillars and other pests of the garden. Plant out annuals raised in pots, and sow annuals for succession. Propagate by cutting dahlias, pansies, double wall-flowers, rockets, scarlet lychnis, and lobelias by dividing the roots. Herbaceous border plants should be thinned out and staked.

COMPTON WINYATE.

The fine old mansion of Compton Winyate, a seat of the Marquis of Northampton, is very snugly situated in one of the little Cotswold valleys—so snugly indeed that Camden speaks of it as Compton in the Hole. The mansion, an irregular old-fashioned building, in its palmy days contained eighty-one rooms. Here Charles I. slept the night before Edgehill. Here was born Compton, Bishop of London, who held the see during the time that Christopher Wren's work was going on at St. Paul's.

GARDENING.

SOW peas and beans for late crops; the kinds used for early crops are also best for this purpose. In the first week sow turnips for succession, and in the third week for a full autumn crop. Net over cherry-trees to protect the fruit from birds. Destroy insects by frequent washing, and by directing tobacco smoke against them, or by strewing snuff over them. Sow perennials for planting out in spring, if neglected last month.

TRENTHAM HALL.

TRENTHAM HALL, the seat of the Duke of Sutherland, is situated in a park of great extent, which lies on the river Trent. There was an old Trentham Hall, but it was rebuilt by Sir J. Barry. Trentham Hall was visited by the Queen, when Princess Victoria, and her mother in 1832. There is a fine gallery of pictures. The river Trent is made to spread into a fine lake, planted with ornamental timber, the work of Brown, the famous landscape artist of the last century.

Plant full crops of celery, celeriac, and endive about the middle and end of the month; late crops of broccoli, cauliflowers, and cole-worts in the last week. Gather medicinal and pot herbs and dry them, and propagate such herbs by slips and cuttings. Prune and train wall-trees, and destroy insects. Plant strawberries in pots for forcing next winter.

BERKELEY CASTLE.

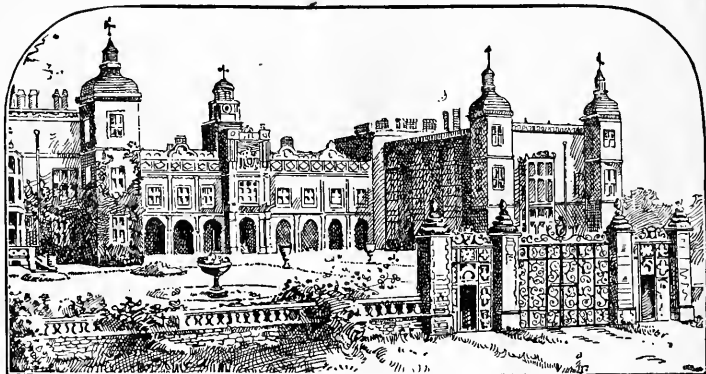

ON the south-east of the town of Berkeley in Gloucestershire stands Berkeley Castle, noted in history as the scene of the murder of one of our kings under circumstances of great atrocity. It is not ascertained at what date the building was commenced, but about the year 1150 it was granted by Henry II. to Robert Fitzhardinge with power to strengthen and enlarge it. Edward II. was murdered here 1327. In one of the apartments are relics of Sir Francis Drake.

IN the beginning and end of the month sow winter and spring spinach. A few coleworts may still be planted. Begin to earth up first-planted celery and leeks. Savoys and cabbages, which are particularly subject to the attacks of caterpillars, should be sprinkled with lime on dewy mornings. Net up in dry weather gooseberry and currant bushes to preserve the fruit till late in the autumn. Preserve the ripening fruit on the walls from insects, and destroy wasps' nests.

HATFIELD HOUSE.

HATFIELD HOUSE, the stately seat of the Marquis of Salisbury, is situated about eighteen miles from King's Cross. We must go back to the days of the sixteenth century in order to find Hatfield at the proudest moments of its history, for from the time of its becoming one of the Tudor palaces down to the close of Queen Elizabeth's reign it was frequently connected with incidents of note in our national records.

GARDENING.

A FEW small salads may be sown for late crops, and lettuce and spinach, if not done in August, for spring crops. Lift onions, and lay them out on a gravel walk or on a dry border. Finish the summer pruning and training of fruit-trees. Gather the autumnal sorts of apples and pears, and store them. Plant strawberries for a main crop. Sow in the beginning of the month all half-hardy annuals, if not done last month. Continue the propagation of herbaceous plants.

GREENLANDS.

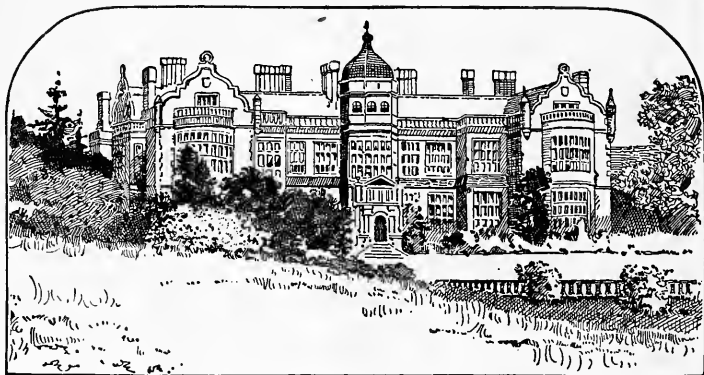

AMONGST the notable houses in the neighbourhood of Henley-on-Thames is Greenland, the seat of the late Rt. Hon. W. H. Smith. It is pleasantly placed, and is a familiar object to all who visit what has been described as the Mecca of the rowing man, and one of the most favourite places of pilgrimage for anglers; a place, too, which is a good one to stay at for the tourist who takes no interest either in oars or rods.

GARDENING.

IN the first week sow small salads and radishes, and in the last week mazagan beans and early frame peas. Should the winter prove mild, they will be somewhat earlier than those sown next month, or in January. Dig up and store carrots and potatoes. Parsnips may be left in the ground till next month. Transplant fruit-trees. Store and lay up very carefully during the month all sorts of apples and pears. A part of them may be placed in a close cellar.

INGESTRE HALL.

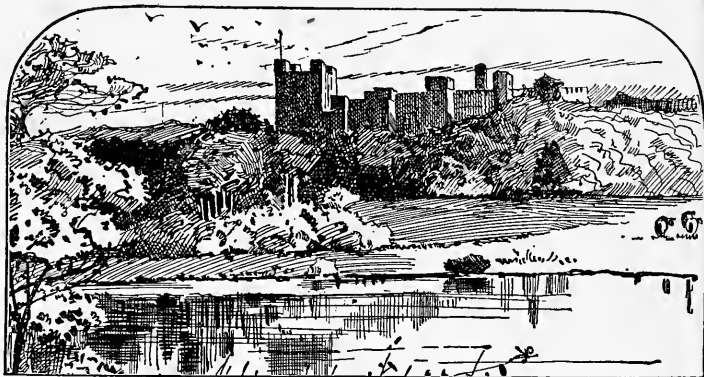

THE original Ingestre Hall was a noble Jacobean pile familiar to all who were interested in the family seats and architectural beauties of Old England. In 1882 it met with a fate which has overtaken many another old mansion, and was totally destroyed by an accidental fire. The modern mansion is situated in a magnificent park partly bounded by the Trent river, and a good idea of its imposing dimensions and harmonious proportions is to be obtained from our engraving.

GARDENING.

IN the second week sow early frame peas and mazagan beans for an early crop. Take up endive, late cauliflower, early broccoli, and lettuces, and lay them in an open shed, or in old cucumber or melon pits, which will protect them from frost, and afford a supply during winter. In fine weather—and the earlier in the month the better—plant all sorts of fruit-trees. When the weather permits, carry on the work of pruning and nailing.

PENRHYN CASTLE.

A FAVOURITE excursion from Bangor taken by many tourists in that interesting neighbourhood is one to Penrhyn Castle, the seat of Baron Penrhyn. The Castle is a fine modern mansion built in the old style, and is well worth a visit. One of the sights of the place is the old Hirlas Horn, which belonged to Sir Rees Griffith, who was sheriff of Carnarvon in 1566. About half a mile from the Castle is the highly picturesque model village of Llandegai.

GARDENING.

SOW a few beans and peas. Turn up the ground thoroughly for exposure to the frost and snow. In mild weather plant all sorts of fruit-trees. Mulch over the roots of tender trees, such as are often so far affected by frost as to be barren in the coming year. Inspect the fruit in the store-room at frequent intervals, and remove whatever is found to be in a state of decay. Collect dead leaves and rubbish. Old shrubberies should be cleared, top-dressed, and dug.

WITLEY COURT.

OUR engraving represents Witley Court, the Worcestershire seat of Lord Dudley. The owner of this imposing residence is the largest landowner in the county of Worcester, holding no fewer than 14,699 acres. There was a Dudley Castle in Worcestershire which continued habitable till 1750, when it was burned to the ground. Tradition ascribes the fire to a set of coiners, to whom the Castle served as a sort of retreat or concealment.

DAYS OF GRACE, &c.

Bills of Exchange or Promissory Notes payable at
any time after date have three Days of Grace allowed :
thus, a bill dated 1 Jan. at two months' date is not due
till March 4; but by a recent Act no Days of Grace are
allowed on Bills drawn at sight or on demand; such
must, therefore, be paid on presentation. Bills of Ex-
change falling due on Good Friday and Christmas Day
are payable on the *previous* day; those due on the
other holidays being payable on the following day.

MARRIED WOMEN'S PROPERTY ACT.

The wages and earnings of any married woman ac-
quired in any employment or trade carried on *separately*
from her husband shall be deemed to be property held
and settled to her separate use independent of husband.
Any money a married woman may acquire by the exer-
cise of any literary, artistic, or scientific skill, is also her
own separate property. Any monetary or other invest-
ments a married woman may make as the result of her
own exertions are her own property absolutely.

LANDLORD AND TENANT.

A yearly tenant must take care that he gives notice to
quit his premises half a year before the time of the ex-
piration of the current year of his tenancy. If, by agree-
ment, a quarter's notice is to be sufficient, such notice
must always expire with the tenancy, if that is yearly.
If a landlord neglects to repair the premises according to
his covenant, the tenant may maintain an action against
him; but such neglect does not absolve the tenant from
payment of the rent. A landlord can legally dispose of
goods taken under a distress for rent, by appraisement,
without putting them up to auction. A landlord may not
take possession of the goods of his tenant's lodgers.

RATES OF BROKERAGE.

There is no scale fixed or recognised by the Commit-
tee of the Stock Exchange, but the following are the charges
usually made for commission by stockbrokers:—

	s. d.
British and foreign funds	per £100 stock 2 6
Exchequer bills	" 1 0
Colonial Government and railway bonds, per cent. ..	5 0
Shares under £5	per share 1 0
" from £5 to £10	" 1 6
" £10 to £25	" 2 0
" £25 to £50	" 5 0
" £50 and above	per cent. 10 0

In cases in which stock is under £50, the commission
charged is ¼ per cent.

MAKING A WILL.

A form in which a will may be commenced is. "This
is the last will of Thomas Anderson, Myrtle Cottage,
Paradise Row, Dorking, in the county of Surrey."

After disposing of the property the will may be ended
thus:—"And I revoke all former wills and codicils.
Dated the 10th December, 1893."

In executing a will the testator should sign his name
at the foot or end of the will, in presence of two witnesses,
who will immediately sign their names in his and in each
other's presence. A person who has been left a legacy
or share of residue in the will, or whose wife or husband
has been left a legacy, should not be an attesting witness.
Their attestation would be good, but they would forfeit
the legacy. It is better that a person named as executor
should not be a witness. Husband and wife may both be
witnesses, provided neither is a legatee. If a solicitor be
appointed executor, it is lawful to direct that his ordinary
fees and charges shall be paid; but in this case he (as an
interested party) must not be a witness to the will.

But the best advice that can be given to anyone
desirous of making a will, is to put the matter into the
hands of the most respectable lawyer he can discover,
and trust to his professional skill. Amateur will-
making, as a rule, is a mistake.

The Months in the above Table are calculated at only Twelve Months to the Year. If the Yearly Wages be Guineas instead of Pounds, for each Guinea add one Penny to each Month, or one Farthing to each week. Thus, Six Pounds per Year are Ten Shillings per Month; but if the Wages be Six Guineas, add one Penny for each Guinea, that is, Sixpence, and it will then be Ten Shillings and Sixpence per Month. In like manner, by adding Six Farthings to each Week, the Wages will be Two Shillings and Fivepence per Week.

NOBILITY OF LIFE.

"Who best can suffer, best can do."—MILTON.
What alone enables us to draw a just moral from the tale of life?

"Were I asked what best dignifies the present and consecrates the past; what alone enables us to draw a just moral from the Tale of Life; what sheds the purest light upon our reason; what gives the firmest strength to our religion; what is best fitted to soften the heart of man and elevate his soul—I would answer, with Lassus, it is 'EXPERIENCE'."—LORD LYTTON.

"QUEEN'S HEAD HOTEL, NEWCASTLE-UPON-TYNE,
"J ne 4th. 1887.

"SIR,—Will you to-day allow me to present you with this Testimonial and Poem on ENO'S justly celebrated "FRUIT SALT?" My occupation being a very sedentary one, I came here to see what chance of air would do for me, and, at the wish of some personal friends, I have taken your "FRUIT SALT," and the good result therefrom is my reason for addressing you.—I am, Sir, yours truly, A LADY."

"The appetite it will enforce,
And help the system in its course;
Perhaps you've ate or drank too much,
It will restore like magic touch.
Depression, with its fearful sway,
It drives electric-like away;
And if the Blood is found impure,
It will effect a perfect cure.

"Free from danger, free from harm,
It acts like some magician's charm;
At any time a dainty draught,
Which will dispel disease's shaft;
More priceless than the richest gold,
That ever did its wealth unfold;
And all throughout our native land
Should always have it at command."

ENO'S "FRUIT SALT."—A Lady writes:—"I think you will be glad to hear that I find your "FRUIT SALT" a most valuable remedy; and I can assure you I recommend it to all my friends, and the result is always satisfactory. Everything—medicine or food—ceased to act properly; for at least three months before I commenced taking it, the little food I could take generally punished me or returned. My life was one of great suffering, so that I must have succumbed before long. To me and our family it has been a great earthly blessing; I feel I cannot say too much for it. The least I can do is to do my best to make the "FRUIT SALT" known to other sufferers. I am getting better rapidly, and expect to totally recover, after spending hundreds of pounds, and travelling about for twelve years."

HEADACHE & DISORDERED STOMACH.
—"After suffering two-and-a-half years from severe headache and disordered stomach, and after trying almost everything without any benefit, I was recommended to try ENO'S "FRUIT SALT," and before I had finished one bottle I found it doing me a great deal of good, and am restored to my usual health. And others I know that have tried it have not enjoyed such good health for years.—Yours most truly, "ROBERT HUMPHREYS.
"Post Office, Barrasford."

The value of ENO'S "FRUIT SALT" cannot be told. Its success in Europe, Asia, Africa, America, Australia, and New Zealand proves it.

THE SECRET OF SUCCESS.—Sterling Honesty of Purpose; without it life is A SHAM!—A new invention is brought before the public, and commands success. A score of abominable imitations are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that, employed in an original channel, could not fail to secure reputation and profit.—ADAMS.

CAUTION.—Examine each Bottle, and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by a worthless imitation.
